# THE GLOBAL AIR TRANSPORTATION

## INTRODUCTION:

- This Global Air Transportation Network dataset is a comprehensive collection of information on airports, airlines and their routes. It contains information such as names, cities, countries, codes (IATA and ICAO) longitudes, latitudes and altitudes of airports across the world with detailed time zone and daylight saving time data. Additionally, this includes information about airline including their IDs, names aliases, IATA and ICAO codes, callsigns country of origin and active/inactive status.
